## MagniLoupe™

ML-20

### 4-Piece Eye Loupe Set

Congratulations on selecting your new MagniLoupe! In order to achieve optimum performance, please follow instructions for proper use and care.

### PRODUCT SPECIFICATION

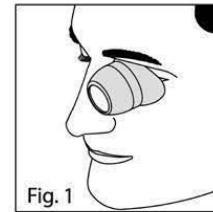

Magnification:	4.5x/6.5x/8x/13x	Dimensions:	1.4" x 1.3" x 1.5"
Weight:	0.02lbs	Accessories:	Smartphone Clip

### USING EYE LOUPE

1. Select the loupe with your desired magnification.
2. Place the rubber eyecup over your eye and hold in place (Fig. 1)
3. Bring viewing subject close to loupe.

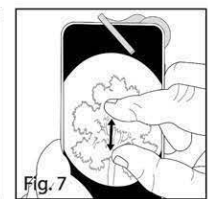

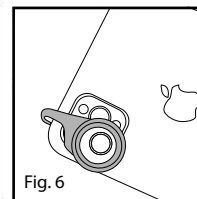

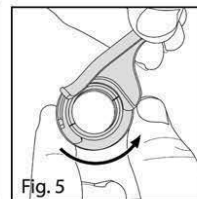

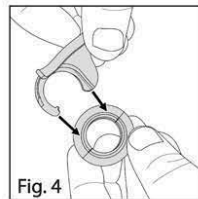

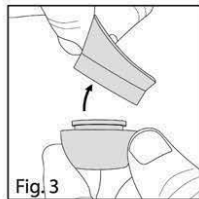

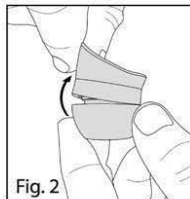

#### For Best Results:

Depending on your vision, you may need to move the subject closer or further away until focused.

### USING WITH PHONE CLIP

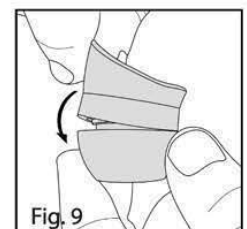

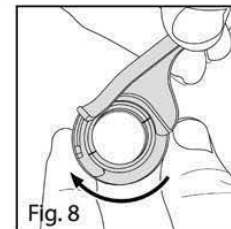

1. Pull off and remove rubber eyecup from loupe (Fig. 2-3). Set rubber eyecup aside.
2. Slide phone clip onto one side of loupe. Rotate clockwise until it snaps in place if needed (Fig. 4-5).
3. Attach phone clip with loupe centered over primary camera lens\* (Fig. 6).
4. Open camera app in either video or photo mode. Move loupe until image is centered on your screen.  
For best results, pinch screen to zoom in until there are no longer any black edges around camera view (Fig. 7).
5. Adjust distance between loupe and subject until focused.

\*Typically, the primary is a 1x wide-angle camera and the other camera(s) are secondary. For the latest instructions, and for selecting primary camera for iPhone 13 Pro and later, visit [www.carson.com/multicam](http://www.carson.com/multicam)

### DISASSEMBLING AND STORING LOUPE

1. Remove smartphone clip. While holding clip, rotate loupe counterclockwise (Fig. 8) to detach it from phone clip.
2. Reattach rubber eyecup to loupe by hooking one side of eyecup onto edge of loupe. Gently push eyecup over the other half of the edge until it securely snaps into position (Fig. 9).
3. Before storing, clean using microfiber lens cloth. Do not use any abrasives, chemical cleaners, or solvents.
4. Store eye loupe set in gift box when not in use.
